

# CITYLINE SUNNYVALE NOTIFICATION

## Extended Construction Hours

### August 24, 2022

Construction of commercial and residential buildings for Cityline Sunnyvale is underway and is expected to be completed by Q4 2024. The current project phase is bounded by Washington, Murphy, McKinley Avenue and Taaffe Street. This phase includes concrete pours to complete building foundations, vertical elements of the building and garage decks. We continue to work with the City to schedule construction work to minimize impact on downtown residents and business, but there are occasions when we require extended work schedules to complete different work phases. Below is a list of the remaining concrete pours that include additional work hours. For more information and updated work schedules visit: [www.citylinesunnyvale.com/construction](http://www.citylinesunnyvale.com/construction).
